Vision Statement

The world's leading association for management accounting and finance professionals.

CMA Perspective

Installment 10 . from National IMA

Q: What is the (CMA®) Certified Management Accountant?

A: The CMA® designation is an advanced, globally recognized credential that supports management accounting and finance professionals who drive business performance from inside organizations. It is designed to foster the professional development of those who hold it, preparing them to anticipate the needs of their organizations and play an integral role in the strategic decision-making process, while also upholding the highest level of professional and ethical standards.

Q: Why should I get my CMA?

A: Beyond the fact that IMA's Annual Salary Survey (*Strategic Finance* magazine, June 2007) shows that certified professionals earn approximately 27 percent more than non-certified professionals, holding the CMA sets you apart from other practitioners and demonstrates your dedication to the profession, a commitment to excellence, and a pledge to adhere to the highest ethical standards.

Q: How can I get my CMA?

A: Visit the **Certification section** for information on certification requirements and how to register for the CMA examinations.

<http://www.imanet.org/certification.asp>

Q: Does IMA have resources to help candidates prepare for the CMA exam?

A: IMA offers a suite of CMA exam prep tools to help you prepare for and complete the CMA exam. The CMA Learning System is a state-of-the-art, self-directed study program that delivers today's most comprehensive, customized learning experience in management accounting. A unique online self-assessment tool is available to benchmark a candidate's knowledge.
